BATTLE PASS SICK EVER!. Bugged as u2665u2665u2665u2665, waste of money. Valve basically put out early access DLC.. Best battle pass so far. waste of money, not recommended to buy at all, very hard to level up battle pass, need to win for that.. This years battle pass is greedy and trash. I believe I already sent my concerns to Valve support so writing here would prove inane.. Costs a bit more than a pizza and makes playing Dota more fun. Also probably the best battle pass yet + I don't mind paying Valve a few bucks per year for all the great support and treatment, heck they even support Vulkan and open source platforms (runs like a dream on linux) while poor LoL is technically years behind in everything.. waste of money, not recommended to buy at all, very hard to level up battle pass, need to win for that.. cost very little will make your money back from the treasure chest you get makes dota more fun
